SUMMARY

Over 10+ years of proven experience in developing consumer-focused websites using HTML, CSS, JAVASCRIPT, REACTJS, NEXT.JS & RWD all devices. Built websites for desktop, tablets and mobile meeting highest standards of satisfaction for the customers. I am an ambitious Front-end developer looking for a challenging new role in the IT industry with the opportunity to work with the latest technologies on challenging and diverse projects.

I am disability - I am able to speak and hear with the use of hearing aids as well.
I am hearing impaired (80% hearing loss), using hearing aids. I can reasonably hear in person. I very well understand the written tasks and deliver the best quality output within the timelines. None of my previous organizations have faced any challenges because of this. I couldn't listen to calls over the phone due to hearing loss. Hope would you please chat to discuss this further more information about me https://api.whatsapp.com/send/?phone=9920767524
